

# iTALK BC9 Body Camera

Body camera with integrated PoC, video  
dispatch and command and intelligent AI  
applications.

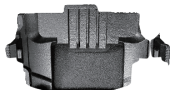

## Features

- On-site Real-time Video & Audio Streaming
- Dual Rotatable Camera
- NFC
- Push-to-Talk Over Cellular
- Loud Audio

## Specifications

Bands	<b>Asia-Pacific Version</b> LTE-FDD: B1 / B3 / B5 / B8; LTE-TDD: B34 / B38 / B39 / B40 / B41; WCDMA: B1 / B8; EVDO/CDMA: BC0; GSM: 900/1800MHz	<b>Europe/Africa/Southeast Asia/ Australia/South America* :</b> LTE-FDD: B1/B2/B3/B4/B5/B7/B8/B20/B28; LTE-TDD: B38 / B39 / B40 / B41; WCDMA: B1 / B2 / B4 / B5 / B8; GSM: 850/900/1800/1900MHz
Display	3.1-inch, IPS LCD touch screen	
Processor	Qualcomm 8-core chip A53, Ram 2G, ROM 16G (standard)	
Dimensions (H*W*D)	≤118*67*27 mm	
Weight (with battery)	≤220g	
Ingress Protection	IP68	
Memory	32G (Standard), 64G/128G/256G(Optional)	
Accessory ports	3.5MM earpieces connector/Mini-USB/Pogo Pin	
Field of view	Diagonal: 140°, Horizontal: 100°, Vertical: 63°	
Image Resolution	Max 36MP	
Video Resolution	2560×1440, 1920×1080, 1280×720, 720×480	
Geometric Distortion	<15%	
Battery Capacity	3500mAh	
Battery Life	≥10h (continuous video shooting with 1080P@30FPS, day time, normal operation) ≥5h (continuous video streaming with 640*480 day time, normal operation, supports 1080P, 720P, 480P )	
Night Vision	Face Recognition≤5m, Human Body Identify ≤10m	
Positioning	GPS	
WIFI	Asia 2.4G, Europe & America 2.4G/5G	
Bluetooth	BT4.0	
Charger	Double-unit charger (optional)	

## Standard Accessories

 Power adaptor According to the actual regional configuration)	 USB cable	 Battery	 Belt clip	 Belt clip bracket
--	--	--	--	--

## Optional Accessories

 Double-unit Charger (Power adaptor, and Type-C cable are included)	 PTT earpiece	 Belt clip with shoulder lamp	 External camera	 Multi Unit Charger
---	---	--	---	---

## Key Features and Highlights

### 4G On-Site Real-time Video Streaming

The BC9 Body Camera can transmit the on-site real-time video back to the control center, to meet the demand of remote commanding, which could perform video monitoring, video call, live streaming, and video conference.

### NFC

The NFC function on the BC9 supports more applications in different industries by extending functions as guard patrol and time and attendance.

### Dual Rotatable Camera

The wide-angle and zoom lens\* of the BC9 can be rotated, which provide optimal angle of view and flexible wearing positions for users to make the video, images and video conference in various critical events.

### iTALK Call Options

The BC9 Body Camera features all call, group call, full-duplex call, conference call and dynamic grouping to meet the instant call demands in various fields.

### Secure Voice and Video

The BC9 Body Camera adapts the secure RTP protocol (SRTP) which is used for encryption and authentication of both voice and video. This is especially beneficial over Wi-Fi networks.

### BOX Dual Loudspeakers

With the professional design of dual loudspeakers, BC9 has a clearer and louder audio to make a good performance in the noise environment.

## System Features

## Visualized and Intelligent Platform

### Visualized Dispatching

With 4G, it can provide a real-time monitor and control the on-site terminals.

### Video Application

it supports multichannel video pulling, silent monitoring, video conference, and live streaming.

### GPS Positioning

The map viewing, and GPS positioning in real-time enhance the work efficiency.

### Multiple Audio Calls

With the dispatcher, BC9 supports group call, full-duplex call, conference call, broadcast call, dynamic group assignment, priority call, forced disconnect, override and other functions.

### Emergency Alarm

The one-button design enables all the on-site information including real-time audio and video, location, terminal ID to be uploaded to the control center automatically.

### System Architecture

Could or exclusive server supports redundancy backup, data encryption, storage expansion and role-based control and user authorization for security.
